

Whitley Manufacturing Exhibits at The 2016 Power-Gen International

Whitley Manufacturing plans to exhibit at the upcoming 2016 Power Generation International highlighting its modular mechanical enclosures in the marketplace.

SOUTH WHITLEY, INDIANA / NOVEMBER 1, 2016 / Whitley Manufacturing will participate as an exhibitor in the 2016 Power-Gen International at the Orange County Convention Center (North & South Halls) in Orlando, FL on December 13th – 15th, 2016.

Whitley Manufacturing will be exhibiting at the world's largest power generation event. With over 65 years experience in manufacturing custom commercial modular structures and specialized products such as equipment enclosures, Whitley sees an opportunity to present practical, innovative solutions provided by its modular built systems. Whitley brings an experienced engineering team with a deep understanding of the power generation and mechanical enclosure market as well as a metal fabrication department dedicated to quality, custom built structures that exceed the demands of its customers.

“Being our first year at the event, we’re looking forward to the opportunity to listen and learn from our customers and other industry professionals,” said Whitley Vice President, Drew Welborn. “But, we also want to offer the true benefits of modern, modular systems, designed and performance tested specifically to the equipment. And we have a history of doing that while saving significant time and providing innovative solutions.” During the event, Whitley will focus on its manufacturing capabilities, advancements in modular technology in the various markets it serves. A [video demonstration](#), literature and case studies will be available with an emphasis on:

- HVAC Shelters
- Mechanical Enclosures
- Cable Landing Stations
- Pump Shelters
- The UpGrade™ system with 20’ ceilings
- IT/Networking
- Battery Storage
